All Zero Tolerance knives are proudly built in our Tualatin, Oregon USA manufacturing facility by our most skilled workers. Using only premium materials, they work to ZT’s high-performance standards, ensuring each part of every ZT is built with precision and care. The operation of your ZT is conspicuously smooth and fit-and-finish is second to none. Each one is confidently backed by our Limited Lifetime Warranty.
We produce over one million Zero Tolerance and Kershaw knives each year in our state-of-the-art facility. We ship hundreds of thousands of units to authorized dealers throughout the US. We employ over 300 local people and have local partnerships with companies employing hundreds more. We are committed to quality, to community, and to ZT owners everywhere.
Minimalist design meets maximum performance in the new 0230 from ZT and Danish designer Jens Ansø.

This slipjoint features a double-detent system: two steel detent balls, one on each side of the blade. These hold the blade safely closed for carrying. Then, for controlled open and close, the 0230 also has a half-open position.

The blue anodized aluminum backspacer has an integrated lanyard attachment. And instead of a logo on the blade, we put our name on the spine. Combine that with a 20CV sheepsfoot blade and ultra lightweight carbon fiber handle for a simple, yet extraordinary knife.

**FEATURES**

**STEEL**
CPM 20CV, stonewashed finish

EXPERIENCE
PRECISION MACHINING

From imagination to prototype to production, we are built with precision. Every detail is perfected, so you can carry the very best in a premium-grade pocketknife with striking looks and flawless function.
We are built by the most skilled and experienced teams in the ZT factory. We are hand assembled, hand sharpened to a razor edge. We are tested, and tested again. Until we are ready. For you.
For those who prefer their knives on the larger side, we created the new 0308.

The 0308 offers a beefy 3.75-inch blade of premium CPM 20CV. The handle features coyote tan G10 on the front scale with a titanium back. Both front and back are heavily 3D machined for an ultra-secure grip. The .25-inch solid pivot features a custom nut that enables it to be adjusted in the field with a .5-inch wrench.

The 0308 opens with ZT’s KVT ball-bearing system and is secured with a sturdy frame lock. The pocketclip is right/left reversible and the handle hole pattern is compatible with many after-market clips. When you want a big knife, this is the one to get your hands on.
Designed by Tim Galyean, the 0223 takes its inspiration from a classic military knife.

A clip-point blade of CPM 20CV steel offers exceptional hardness and wear resistance. Black DLC coating gives it a non-glare finish. The titanium handle has a frame lock for reliable lockup. The 0223 opens with ZT’s KVT ball-bearing system. Earth brown G10 handle scales echo the original military knife’s stacked leather handle.

A bronze-anodized titanium tube spacer and decorative holes drilled in the blade ricasso add to the subtle details of this handsome knife.

**FEATURES**

**STEEL**  
CPM 20CV, black DLC coating

**HANDLE**  
Titanium, DLC coating; earth brown G10 scales

**MECHANISM**

Once you get a ZT in your hands, you will understand that we are made to deliver unmatched performance. Put us to work and experience what a higher standard of performance means in action.
This ZT–Ernest Emerson collaboration provides both practicality and style. The clip-point blade is CPM 20CV high-chromium stainless steel. This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a truly long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance as well. The handle is titanium with a green carbon fiber overlay on both sides of the handle.

This fully manual knife opens one-handed with a thumb disk.

**FEATURES**

**STEEL**
CPM 20CV, machine satin grinds, stonewashed flats

**HANDLE**
Titanium, stonewashed finish; green carbon fiber overlay

**MECHANISM**
Manual opening, brass washers, thumb disk

**LOCK**
Titanium frame lock, hardened steel lockbar insert

**POCKETCLIP**
Reversible titanium (right/left, tip-up)

The 0393GLCF’s handle is titanium with Rick Hinderer’s hard-use “working” finish—a no-nonsense finish that hides scuffs and scratches. By day, the contoured, carbon fiber overlay gives the 0393GLCF a touch of style. But by night, the 0393GLCF reveals another side of its character: glow-in-the-dark carbon fiber.

The 0393GLCF features a harpoon-style version of Rick Hinderer’s “spanto” blade in CPM 20CV. For fast and easy opening, the 0393GLCF’s blade moves smoothly out of the handle with the KVT ball-bearing system and a flipper.
From ZT and Tim Galyean, the 0022 is the most compact ZT ever. But this mini is mighty.

The 1.8-inch clip-point blade is ready, willing, and able to take on just about any task you ask of it. Deep finger grooves in the handle ensure you always have a secure grip.

For good looks and reduced weight, the 0022 has a carbon fiber front scale. The titanium trim ring around the pivot and the tube spacer have been anodized in a light blue that looks great against the carbon fiber.

This smaller knife almost disappears in your pocket, making it an exceptionally easy-to-carry option for EDC or back up.

**FEATURES**

**STEEL**
CPM 20CV, stonewashed finish

**HANDLE**
Carbon fiber front; titanium back, stonewashed finish

EXPERIENCE THE BEST IN QUALITY AND STYLE

Award-winning design. Ultra-premium materials. Skillful, meticulous craftsmanship. It all comes together so we can bring you the very best, whether you’re at work, at home, in the field, on the range, or out for a night on the town.
What we own doesn’t define us. We define what we own.

ZT builds the knives to meet your definition. Like the 0770CF. With its carbon fiber handle, the 0770CF is both an impressively handsome and an impressively lightweight EDC.

It offers the style and performance of the original award-winning 0777, but in a streamlined version. The blade is S35VN powdered metallurgy steel for a razor edge and excellent edge retention.

A decorative pivot adds the finishing touch.

**FEATURES**

The 0470, from ZT and Dmitry Sinkevich, will proudly take its place in your collection. Not that the 0470 is a safe queen. Far from it. It’s a highly practical, easy-to-EDC design that handles a wide range of tasks and looks good doing it.

The blade is CPM 20CV high-chromium stainless steel. The handle is titanium with an eye-catching marbled carbon fiber insert, which ZT leaves with a matte finish for an intriguing and sophisticated look.

A black anodized-aluminum backspacer and a titanium clip complete the look of this refined pocketknife.
A compact version of an award-winning ZT–Dmitry Sinkevich design, the 0450 is right for the office, outdoors—or wherever your adventures take you.

It features premium materials and looks that will draw admiring glances. The S35VN powdered metallurgy blade offers a razor edge and easy resharpening.

The knife opens smooth as butter with our KVT ball-bearing opening system. The lightweight-yet-strong titanium handles give the 0450 a sleek look and provide a sturdy titanium frame lock.

**STEEL**

EXPERIENCE
ULTRA-PREMIUM

High-performance steel. Titanium. Carbon fiber. These ultra-premium materials are matched only by our ultra-premium style, designed to keep you always ahead of the curve.
The Zero Tolerance 0450CF has a dark, sophisticated look.

It features a stronger-than-steel carbon fiber front handle and black Diamond-Like Carbon (DLC) coating on its S35VN blade.

This smaller, gentlemanly ZT opens simply with ZT’s KVT ball-bearing opening.

Yet there is one thing that’s a bit less subtle about the 0450CF: the two emerald green, custom-machined and anodized aluminum tube spacers that add a touch of “wow” to this ZT.

**FEATURES**

**STEEL**
CPM S35VN, black DLC coating

**HANDLE**
Carbon fiber front; titanium back, black DLC coating

**MECHANISM**
Manual opening, KVT ball-bearing system, flipper

The 0456 looks refined enough for the office, but also has all the tough, versatile cutting power you’ll need when life takes you elsewhere.

Based on Dmitry Sinkevich’s custom knife The Pole, the ZT 0456 has the blade shape and rayed handle contours of the original.

The CPM 20CV blade has a handsome two-tone finish. The 0456 also features a good looking aluminum backspacer, pocketclip, and pivot—all in brilliant blue.
Here’s technology every bit as vital as your cellphone: your EDC knife. Open a package, section an apple, solve a coworker’s cardboard box problem, and look badass doing it with the 0452CF designed by Dmitry Sinkevich.

The tech here is the advanced-formula CPM S35VN steel and our KVT opening system. The powdered steel is extremely fine-grained so it can be sharpened to a razor edge. Added niobium and nitrogen help it resist chipping.

Caged ball bearings in the KVT system make the knife smooth and easy to open.

**FEATURES**

**STEEL**
CPM S35VN, machine satin grinds, stonewashed flats

This super-sized version of the 0460 features an upswept blade of CPM 20CV for toughness and wear resistance and a colored carbon fiber front scale with titanium back.

And while the first thing that will catch your notice about this big knife is that sweeping blade and handle curve, we urge you to look closer.

ZT has added details to the interior of the 0462’s handle that are just waiting to be discovered.
The 0460Ti is a titanium-handled version of the popular 0460 from ZT and Dmitry Sinkevich.

The blade steel is CPM 20CV with a two-tone finish: stonewashed on the flats and satin on the grinds. The handle is titanium, machined to fit the hand for comfort and control, and stonewashed for a matte look.

A black anodized aluminum backspacer adds a handsome touch. A black Teflon®-coated pocketclip lets you carry this ZT comfortably every day.

**0460TI EXPERIENCE IT**

2020 CATALOG ZTKNIVES.COM
We are born from the imagination of legendary designers and built to bring you the finest in design, materials, and performance. Put a ZT to work, and you’re making a statement about what you value: the very best.
The 0460 offers a little more handle curve, a little more carbon fiber, a little more Sinkevich.

Based on the Polychotky Jr., the 0460’s carbon-fiber-and-titanium handle has a pronounced ergonomic curve to fit into the hollow of the hand neatly. The front scale is carbon fiber with a bronze weave. For dimensionality and grip, we partially 3D machined the handle.

The premium S35VN blade steel resists chipping and offers excellent wear resistance. For sharp looks, ZT gave the blade a two-tone finish: stonewashed on the flats and satin on the grinds.

**SPECs**

- OPEN 7.5 in.
- CLOSED 4.4 in.
- WEIGHT 2.3 oz.
- BLADE LENGTH 3.25 in.

The 0460 is available for purchase at the MSRP of $245.00. For more information, visit ZTKnives.com.
The 0562CF features the Rick Hinderer flat-ground “slicer” grind for slicing efficiency and a tough point for piercing. Plus this ZT’s handle includes a carbon fiber front scale and stonewashed titanium back.

The knife opens with a flipper and moves out of the handle on our smooth KVT ball-bearing opening system. A washer with caged ball bearings surrounds the pivot and makes opening the knife nearly frictionless; just pull back on the flipper and the 0562CF is ready for action.
Handle a ZT, and you feel the difference immediately. The fit and finish is first class. The craftsmanship is evident. And the performance you experience when you put us to work is deeply satisfying.
The 0562TI features Rick Hinderer’s exclusive Hinderer “slicer” grind. This flat-ground edge provides both slicing efficiency and a tough point.

CPM 20CV powdered steel offers high wear and corrosion resistance. Zero Tolerance sharpens it to a hair-popping edge that holds for a long time, even under hard use.

The knife opens with a flipper and our smooth KVT ball-bearing opening system. The handle is pure titanium with a handsome stonewashed finish. Machining on the inside of the front handle scales relieves weight and makes the 0562TI an easy EDC.
The 0609 is a smaller, even more carry-ready version of the Factory Custom 0606CF from ZT, RJ Martin, and Matt Martin.

Like the original, it offers a clean, streamlined look with detailed handle machining. It also features RJ’s oversized, See-Through Pivot for visual interest—and smooth, easy KVT ball-bearing opening.

The 3.4-inch blade is CPM 20CV for enhanced toughness and resistance to edge chipping. The handle is light-yet-strong titanium anodized in an attractive bronze.

EXPERIENCE THE CHALLENGE OF A HARD DAY’S WORK

The solid, reliable feel of a ZT in your hand means confidence in your tools, confidence in your work. We’re built to take on the toughest challenge. Every day, every time. Just like you.
The 0350 packs a lot of features into an EDC-perfect size. It features the SpeedSafe® assisted opening system. Deploy the blade quickly and easily, even in gloves, using the ambidextrous flipper.

The ZT 0350’s blade is CPM S30V stainless steel with non-reflective black Tungsten DLC (Diamond-Like Carbon) coating. This high-performance S30V blade is paired with textured black G10 scales for a secure grip and excellent mechanical strength even under the roughest conditions.

Wherever you go, whatever you do, we’re there for you. We’re ready to bring the best in innovative styling, premium materials, precision manufacturing, and meticulous craftsmanship to your next adventure.
LIMITED LIFETIME WARRANTY

Zero Tolerance knives from Kai USA Ltd. carry a limited warranty for the lifetime of the original owner, except when stated otherwise. We guarantee our knives against manufacturing defects in material and construction and to perform as advertised when properly used and maintained. The Limited Lifetime Warranty is non-transferable and does not extend to normal signs of wear, rust, damage or breakage due to improper use, improper maintenance, accidents, loss, or theft. This warranty is void on products that have been modified in any way. Any product we determine to be defective will be repaired or replaced solely at our discretion. To receive warranty repair or replacement, the owner must send the product to be evaluated by Kai USA Warranty Services in our Tualatin, Oregon headquarters. In addition to the provisions of this warranty, the owner may also have other rights that can vary by state. No other warranties are implied or expressed other than what is specifically stated here. Kai USA Ltd. reserves the right to determine what constitutes normal wear, improper use/maintenance, and modification.

If you accidentally break your ZT folder’s blade, we can replace it for just $30, pending material availability. Blades that break due to a manufacturing defect will still be replaced under warranty, free of charge. Blades marked “XXXX” are factory seconds and are not eligible for replacement.

LIABILITY DISCLAIMER & WARNING

Zero Tolerance knives are intended and sold for legitimate everyday carrying, sporting, and professional purposes only. The purchase, use, and ownership of knives are subject to a wide variety of federal, state, and local laws and regulations. Always comply with all laws and regulations in effect in your area. Due to the complexity and constantly changing nature of these laws and regulations, it is the responsibility of the buyer to investigate and comply with the laws and regulations that apply in his or her specific area. You, and not Kai USA Ltd., are solely responsible for any claims resulting from violation of these laws and/or regulations.

Knives are extremely sharp tools and should only be used or handled with the utmost care and caution. Any use other than cutting (such as prying or twisting) is considered misuse and abuse—and will void your warranty. Zero Tolerance knives/Kai USA Ltd. is not responsible for any injuries resulting from misuse or abuse of the product.

Do not use any ZT knife as a throwing knife or a stabbing device. Throwing knives and knives developed for stabbing have a distinctly different design and function. ZT knives are not intended for throwing or stabbing; they are designed for cutting purposes only.

We reserve the right to change shipping terms, specifications, materials, discontinue products, adjust blade replacement price and availability at any time, without notice.

ZT REPLACEMENT PARTS

In addition to a selection of free replacement parts, you can get replacements for other ZT parts as well. However, these premium ZT parts are more costly to manufacture, so we charge a small fee. Please check our website for details on the parts currently available.
CRUCIBLE CPM 20CV

This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance and polishability as well.

CRUCIBLE CPM S30V

All-around premium knife steel that takes and holds an edge extremely well; also extremely tough and wear resistant.

CRUCIBLE CPM S35VN

A stainless steel that offers enhanced toughness over S30V without loss of wear resistance. In knife blades, S35VN resists edge chipping and provides excellent edge retention.

WE RESERVE THE RIGHT TO CHANGE MATERIALS WITHOUT NOTICE
