“The details aren’t details. They make the design.”
— Charles Eames, American designer
Which is why we sweat the details. Every. Single. Day.

From the grind of the blade to the screws for the pocketclip, detail drives deeper thought. If we make a small change here, what are the consequences? What will it mean for the way this knife performs, the way it feels in the hand, the way it sits in the pocket?

Detail also drives exacting execution. Each detail must work with every other detail so that your ZT functions like the well-oiled, precision machine that it is.

When we pay attention to details, the results are ZT designs that push the limits, bold blades that question even the existence of the comfort zone. All so you can carry the very best in a premium-grade pocketknife with both striking looks and flawless function.

It’s not the devil that’s in the details. It’s boldness.
WE RESERVE THE RIGHT TO CHANGE MATERIALS AND SPECIFICATIONS WITHOUT NOTICE.
“The bold adventurer succeeds the best.”

— Ovid, Roman poet
The 0609 is a smaller, even more carry-ready version of the Factory Custom 0606CF from ZT, RJ Martin, and Matt Martin. Like the original, it offers a clean, streamlined look with detailed handle machining. It also features RJ’s oversized, see-through pivot for visual interest—and smooth, easy KVT ball-bearing opening.

The 3.4-inch blade is CPM 20CV for enhanced toughness and resistance to edge chipping. The handle is light-yet-strong titanium anodized in an attractive bronze.
The popular 0460 now has a bigger, bolder brother.

This super-sized version of the 0460 features an upswept blade of CPM 20CV for toughness and wear resistance and a colored carbon fiber front scale with titanium back.

And while the first thing that will catch your notice about this big knife is that sweeping blade and handle curve, we urge you to look closer.

ZT has added details to the interior of the 0462’s handle that are just waiting to be discovered.

DETAILED MACHINING MAKES A LIGHTWEIGHT DIFFERENCE

This is a part of your ZT that you don’t usually see. It’s the inside of the titanium handles. And the hollows you see aren’t merely decorative. They’re functional. Their purpose is to lighten the weight of larger Zero Tolerance knives so that even our biggest knives are comfortable not only in use, but also for pocket carry. To achieve these weight-relieving pockets, ZT uses Computer Numerical Control (CNC) equipment to precisely remove material on the inside of the handles. The equipment performs complex machining like this quickly, accurately, and repeatedly—vital in a production environment. The end result is a big, bold knife that’s much lighter than you’d expect.
“There’s nothing more intoxicating than doing big, bold things.”

— Jason Kilar, businessperson, executive
Big and aggressive, the new 0393 pairs Rick Hinderer’s distinctive style with ZT’s solid build in a substantial knife that is also comfortably lightweight.

The 0393 features a harpoon-style version of Rick Hinderer’s “spanto” blade in CPM 20CV. The blade shape offers maximum cutting power with a sturdy tip for piercing. The 0393 opens smoothly with our KVT ball-bearing opening.

For comfortable carry, the 0393’s handle is strong, lightweight titanium. The G10 overlay is machined with a grippy Hinderer custom texture. The knife will also accept a selection of Hinderer custom hardware.

- ACCEPTS CUSTOM HINDERER HARDWARE
- REVERSIBLE POCKETCLIP, TIP-UP
The SLT (Spring-Loaded Tab) is an innovation of custom knifemaker Gus Cecchini. The flipper tab is concealed between the handle scales of the knife, held in place with a torsion spring. To open the knife, pull back on the concealed tab to overcome the resistance in the spring. The tab contacts the blade and as you continue pulling back on the now-open flipper, the blade’s detent is overcome and it moves out of the handle, ready for use. Working with Gus, the ZT engineering team added their own special sauce to the SLT with a custom torsion spring and ball bearings that make SLT super smooth, super quick, and even more habit forming for your flipper finger.

- REVERSIBLE TITANIUM POCKETCLIP, LEFT/RIGHT, TIP-UP

It’s unlike anything you’ve ever seen—unless you’ve seen the Airborne folder by Gus T. Cecchini of GTC Knives. The Airborne was where we started, but the ZT-GTC collaboration took off from there.

With its striking lines, the S35VN blade offers a sharp, long-lasting edge. The titanium handles are 3D machined and the aluminum backspacer is anodized in sky blue.

The 0055 features Gus’ SLT hidden flipper tab. To open the knife, pull back on the SLT to move the tab into position. Then pull back on the tab and the 0055 opens like any other ZT. The action is similar to a two-stage rifle trigger and is completely addicting.

ZERO TOLERANCE KNIVES
ZTKNIVES.COM #GOBOLDTZ
The 0456 looks refined enough for the office, but also has all the tough, versatile cutting power you’ll need when life takes you elsewhere. Based on Dmitry Sinkevich’s custom knife The Pole, the ZT 0456 has the blade shape and rayed handle contours of the original. The CPM 20CV blade has a handsome two-tone finish. The 0456 also features a custom aluminum backspacer, pocketclip, and pivot hardware—all in brilliant blue.
Here’s technology every bit as vital as your cellphone: your EDC knife. Open a package, section an apple, solve a coworker’s cardboard box problem, and look badass doing it with the 0452CF designed by Dmitry Sinkevich. The tech here is advanced-formula steel and our KVT opening system. The powdered steel is extremely fine-grained so it can be sharpened to a razor edge. Added niobium and nitrogen help it resist chipping. Caged ball bearings in the KVT system make the knife smooth and easy to open.

The 0850 brings together Dmitry Sinkevich and Todd Rexford to create an astonishing knife. The blade is CPM 20CV stainless steel with a two-tone finish and opens manually with a decorative thumb stud, which is echoed in the design of the pivot and the unique backspacer. The handle scales are carbon fiber composite with a weave of deep blue.

To keep the weight of this big folder down, ZT used our patented Sub-Frame Lock in titanium. A custom-machined titanium clip rounds out the look of this extraordinary knife.
Strong, light, and with a decidedly upscale look, carbon fiber has been making its appearance in a number of ZT models. Our latest carbon fiber gives you the benefits of carbon fiber but with an understated weave of color that adds a new dimension to the ZT aesthetic. Carbon fiber materials like this are relatively new to the market. Yet the specific demands of knifemaking—such as clean, crisp machinability—mean not all of them will work. We deeply researched the available products, and then worked with our supplier to develop a colored carbon fiber composite material that is workable, strong, functional, and beautiful.
The 0450 and 0450CF, compact versions of an award-winning ZT-Dmitry Sinkevich design, are some of our most-wanted knives. They’re right for the office, outdoors—or wherever your adventures take you. Both feature premium materials and looks that will draw admiring glances whether you choose the steel-and-titanium version or the darker version with a DLC-coated blade and carbon fiber front scale. Whichever one is your choice, the 0450’s tube spacers offer a surprising touch of color—red for the 0450 and green for the 0450CF. Both have a sturdy titanium frame lock with hardened steel lockbar insert and a reversible pocketclip.

- BRONZE CARBON FIBER FRONT
- SINGLE POSITION POCKETCLIP, RIGHT, TIP-UP

The 0460 offers a little more size, a little more handle curve, a little more carbon fiber, a little more Sinkevich.

Based on the Polychotky Jr., the 0460’s carbon-fiber-and-titanium handle has a pronounced ergonomic curve to fit into the hollow of the hand neatly. The front scale is carbon fiber with a bronze weave. For dimensionality and grip, we partially 3D machined the handle. The premium S35VN blade steel resists chipping and offers excellent wear resistance. For sharp looks, ZT gave the blade a two-tone finish: stonewashed on the flats and satin on the grinds.

Based on Les George’s Harpy, the 0920’s design is practical, functional, and extremely clean.

The blade is CPM 20CV stainless steel with an attractive stonewashed finish. A slight recurve gives this blade cutting versatility while the scooped spine and top swedge give it distinctive looks.

The titanium handle is fully 3D machined so that fits and fills the hand comfortably. To help ensure this big folder is easy to carry, the inside of the handles are machined with weight-relieving pockets. Black-oxide hardware gives the 0920 an understated, yet aggressive, look.

While ZT collaborates with some of the world’s most renowned custom knife designers, our own in-house team is pretty outstanding, too. They’ve helped ZT win numerous awards, designing knives that went on to be not only award winners, but best sellers—which means that they’re winners in your book, too. Look for this designation: A ZT Originals Design in this catalog to identify these exceptional in-house originals.

- PRECISION DETAILING
- EXACTING MANUFACTURING
- AWARD-WINNING RESULTS
The Zero Tolerance 0095BW is shark sleek and boldly beast-like. This ZT is a solid handful of contoured titanium and S35VN stainless steel. The “harpoon-style” blade offers an ultra-sharp edge that lasts a long time and resists chipping. Both blade and titanium handle have our BlackWash finish to protect and hide scratches. KVT makes this beast of a knife open as smooth as butter.

How many 0350s can a guy reasonably own? As many as it takes. This perfect knife comes in many variations because you asked for it. BlackWash? Yes. Stonewashed blade? Yes. Serrated and plain edge? Yes and yes. Each 0350 features a razor-sharp blade of S30V stainless steel for extreme durability, corrosion resistance, and wear resistance. SpeedSafe® assisted opening and the 0350’s built-in flipper make it fast and easy to open—even one-handed, even in work gloves. Blade lock up is secure thanks to a sturdy locking liner. Carrying the 0350 is versatile, too. With ZT’s four-position pocketclip, you can carry tip-up, tip-down, left- or right-handed. It’s your 0350, your way, your choice.

The 0562 has Rick Hinderer’s custom “slicer” grind to easily take on any cutting task. It’s got a high-performance S35VN or CPM 20CV powdered steel blade and a carbon fiber or G10 front scale that not only helps reduce the knife’s weight in your pocket, but looks good doing it. Opening is simple and easy with our ultra-smooth KVT ball-bearing opening system. To ensure secure use, we built it with a frame lock with hardened steel lockbar insert and lockbar stabilization. The pocketclip is reversible and enables extra-deep carry. And, of course, it’s got ZT’s famous overbuilt construction.

“You must dare, and dare again, and then dare a little bit more, and go on daring.”
— Justin Cotillard, author
Crucible CPM 20CV
This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance and polishability as well.

Crucible CPM S30V
All-around premium knife steel that takes and holds an edge extremely well; also extremely tough and wear resistant.

Crucible CPM S35VN
A stainless steel that offers enhanced toughness over S30V without loss of wear resistance. In knife blades, S35VN resists edge chipping and provides excellent edge retention.

LIMITED LIFETIME WARRANTY

Zero Tolerance from Kai USA Ltd. carry a limited warranty for the lifetime of the original owner, except when stated otherwise. We guarantee our knives against manufacturing defects in material and construction and to perform as advertised when properly used and maintained. The Limited Lifetime Warranty is non-transferable and does not extend to normal signs of wear, rust, damage or breakage due to improper use, improper maintenance, accidents, loss, or theft. This warranty is void on products that have been modified in any way. Any product we determine to be defective will be repaired or replaced solely at our discretion. To receive warranty repair or replacement, the owner must send the product to be evaluated by Kai USA Warranty Services in our Tualatin, Oregon headquarters. In addition to the provisions of this warranty, the owner may also have other rights that can vary by state. The Limited Lifetime Warranty does not apply to the TX Tool. No other warranties are implied or expressed other than what is specifically stated here. Kai USA Ltd. reserves the right to determine what constitutes normal wear, improper use/maintenance, and modification.

If you accidentally break your ZT folder’s blade, we can replace it for just $30, pending material availability. Blades that break due to a manufacturing defect will still be replaced under warranty, free of charge. Blades marked “XXXX” are factory seconds and are not eligible for replacement.

LIABILITY DISCLAIMER & WARNING

Zero Tolerance Knives are intended and sold for legitimate everyday carrying, sporting, and professional purposes only. The purchase, use, and ownership of knives are subject to a wide variety of federal, state, and local laws and regulations. Always comply with all laws and regulations in effect in your area. Due to the complexity and constantly changing nature of these laws and regulations, it is the responsibility of the buyer to investigate and comply with the laws and regulations that apply in his or her specific area. You, and not Kai USA Ltd., are solely responsible for any claims resulting from violation of these laws and/or regulations.

Knives are extremely sharp tools and should only be used or handled with the utmost care and caution. Any use other than cutting (such as prying or twisting) is considered misuse and abuse—and will void your warranty. Zero Tolerance Knives/Kai USA Ltd. is not responsible for any injuries resulting from misuse or abuse of the product.

Do not use any ZT knife as a throwing knife or a stabbing device. Throwing knives and knives developed for stabbing have a distinctly different design and function. ZT knives are not intended for throwing or stabbing; they are designed for cutting purposes only.

We reserve the right to change shipping terms, specifications, materials, discontinue products, adjust blade replacement price and availability at any time, without notice.
